

# BONDADA WINGS 2024

**VOLUME - 6**  
November 2024

As we welcome the cool winter season, I'm excited to announce that the sixth edition of the Bondada Wings is now published and ready for you to enjoy!

Building on the success of our previous editions, we are dedicated to providing valuable insights and updates about our organization.

This edition is packed with engaging stories, industry trends, and highlights of our recent achievements. We'll delve into the teamwork that drives our success and share our vision for the future, all while celebrating our contributions to society and acknowledging our committed employees and stakeholders.

We're eager for you to explore this sixth edition and, as always, we welcome your feedback. Your thoughts are essential in helping us enhance our content and better serve you.

Here's to another successful edition of the Bondada Wings!

## EDITOR'S NOTE

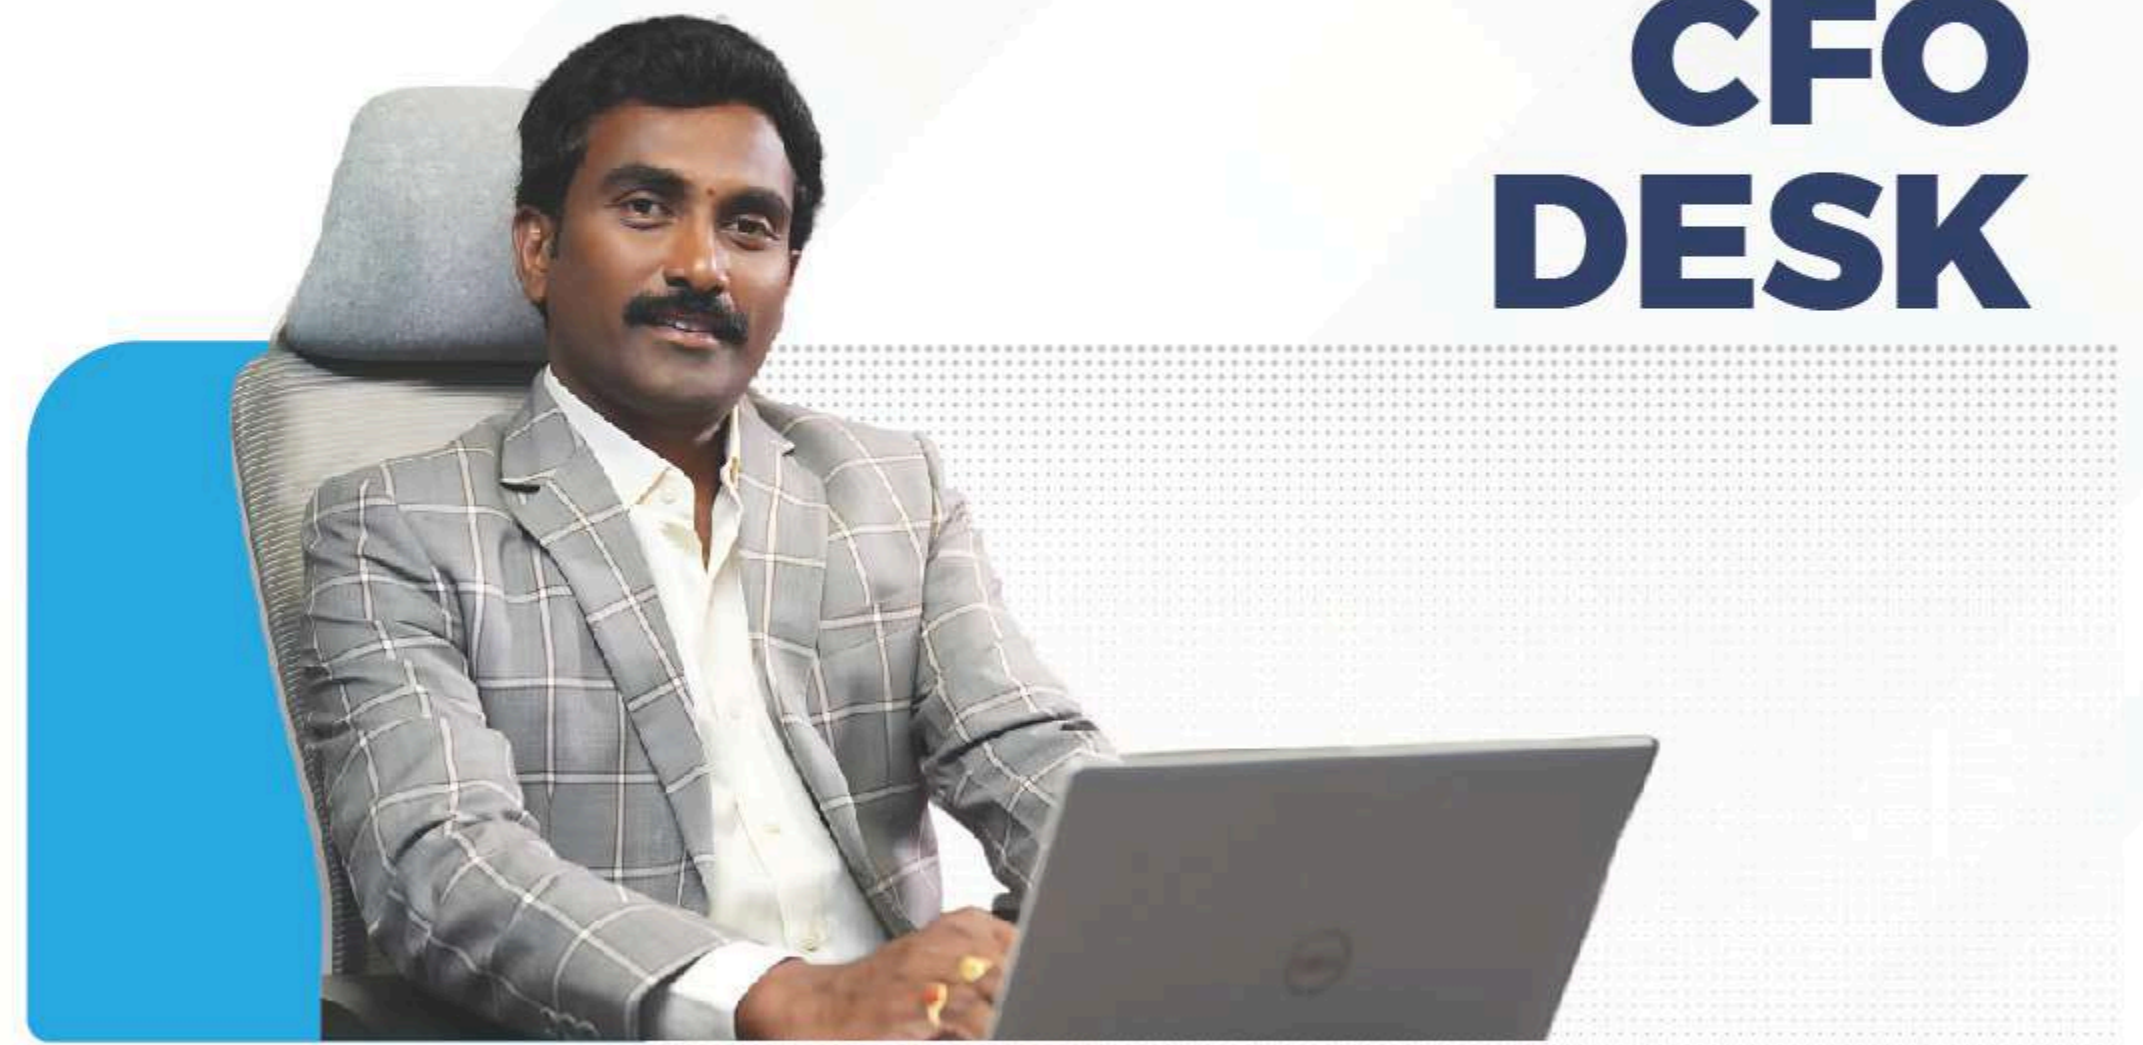

**Kumar Vangara**

*The 6th Volume By The Editor. Nov, 2024*

### Favourite Quote BY THE EDITOR

Our focus is on elevating the potential of our workforce and instilling cultural changes that promote growth and enhance employee satisfaction.

## CFO DESK

Greetings to one and all.

### Strong Start to FY 24-25!

We are off to a remarkable start this fiscal year, with significant growth in both revenue and profitability. In the first half, our revenue surged to INR 483 crore, marking a 63% increase from INR 297 crore last year. Our profitability has more than doubled, rising from INR 15 crore to INR 36 crore.

Our CRISIL rating upgrade from BBB+ to A- enhances our creditworthiness and borrowing capacity, allowing us to manage working capital more effectively and reduce financing costs. We are planning a preferential issue to further support our growth and strengthen our financial position.

Our reserves have grown from INR 168 crore to INR 277 crore, reflecting improved financial health. This growth also enabled our transition to the Ind\_AS accounting format, enhancing transparency and aligning us with global best practices. Additionally, the inclusion of BEL in the MSCI Index has greatly increased our global visibility.

Looking ahead, the second half of FY 24-25 is promising, and we remain confident in our continued growth.

Thank you all for your dedication and support.

**Baratham Satyanarayana**

*Director & CFO*

### Favourite Quote BY THE CFO

We take pride in our agility, adaptability, and deep sense of responsibility towards our stakeholders, society and the nation.

## Greetings and warm wishes to everyone!

I am pleased to share that we have exceeded our half-yearly revenue targets across all business segments for the first half of this fiscal year. This remarkable performance is a testament to the hard work and dedication of our team.

In our pursuit of growth, we continue to build a robust order book, which has grown 3-fold comparing to March 24 with a closing order book of Rs. 5350 Crore. In the Solar EPC segment alone, we have secured orders close to 2GW of capacity. Additionally, we have bagged major Telecom O&M projects from industry leaders such as Jio and Indus Towers, further solidifying our position in the market. I am confident that we are on track to achieve our ambitious target of Rs 8,500 Crore closing order book by March 2025.

As we look into the future, I am excited to announce our strategic ventures into green hydrogen, battery energy storage, and the railways sector. These initiatives highlight our commitment to sustainable energy solutions and mark our entry into high-potential industries that promise substantial long-term growth.

Through active participation in major industry expos, we are further solidifying our presence in the market and enhancing our visibility among prospective clients and partners. I am confident that BEL is on its way to being recognized among India's leading EPC service providers.

Looking ahead, we are filled with optimism and excitement as new opportunities emerge on the horizon. Our commitment to excellence, on-time delivery and customer satisfaction remains unwavering, and we are well-prepared to capitalize on these opportunities to drive our growth trajectory even further.

I extend my heartfelt gratitude to each and every one of you for your unwavering support and trust in Bondada Engineering Limited. Together, let us continue to march forward with confidence, determination, and resilience as we embark on the next phase of our journey toward greater success and prosperity.

**Embracing Focus, Humility and Simplicity for Lasting Success**

**12** Celebrating  
years of achievement and growth!

**Dr. Bondada Raghavendra Rao**

Chairman & Managing Director, Bondada Group

**Message from the Chairman**

**CHAIRMAN'S  
DESK**

## SANJAY RAZDAN

**Chief Operating Officer - Bondada Renewable Energy**

With three decades of experience in the energy infrastructure sector, Sanjay Razdan brings a distinctive blend of technical expertise and global insight to Bondada Engineering Ltd. His extensive knowledge encompasses various energy domains, including Hydro, Solar, Wind, Diesel, Gas and Steam turbines.

Sanjay is technologically savvy, having evolved alongside generations of innovations, from electronics to Ai. His tenure with industry leaders such as Andritz, General Electric, and Tata has equipped him to effectively manage diverse teams and drive technological advancements.

As the Chief Operating Officer of Bondada's Renewable Energy division, Sanjay is at the forefront of spearheading 2GW of solar projects, aiming for ₹1000 crores in revenue by FY24-25. In this rapid growth phase, his immediate focus is on achieving Operational Excellence through innovative methods and technology. Sanjay's domain expertise, technical proficiency, and leadership are set to propel Bondada's Renewable Energy division toward exceptional growth.

## LEADERS ANECDOTES

## MADHU KUMAR KONDAPALLI

**Deputy Chief Financial Officer - Bondada Group**

Madhu Kumar Kondapalli is a qualified Cost and Management Accountant (CMA) from The Institute of Cost Accountants of India, boasting over 20 years of diverse experience—19 of which are post-qualification. His extensive background spans various sectors, including EPC, infrastructure, construction, telecom, transmission & distribution, manufacturing, PEB, renewable energy (solar), and staffing.

Throughout his career, Madhu has collaborated with all Big Four audit firms and gained expertise in banking, private equity, investor relations, due diligence, debt syndication, corporate finance, financial modeling, financial reporting, tax planning, and contract management. He has also been involved in Corporate Debt Restructuring, technology implementation, and process digitisation.

Currently, Madhu serves as the Deputy Chief Financial Officer of Bondada Group, where he oversees Finance Controlling, Business Finance, Financial Planning and Analysis (FP&A), Strategic Planning, Taxation, Contract Management, Audits, Commercial operations, Billing, Corporate Legal matters, Budgets and more.

As we strive for long-term growth, our focus remains on consistency, humbleness and simplicity. By fostering genuine relationships and prioritising the needs of our clients, we can deliver the best products and services. It's this commitment that drives our success and sets us apart.

## APTA BUSINESS FORUM

CMD Dr. B.R. Rao Joins APTA Business Forum Global Meeting 2024 as Panelist

## Battery Energy Storage Systems (BESS)

Battery Energy Storage Systems (BESS) store energy generated by renewable sources like solar and wind, allowing it to be used later when needed. BESS helps manage energy supply and demand effectively, ensuring a stable power supply, reducing wastage, and providing backup power. As renewable energy sources are intermittent, BESS plays a vital role in ensuring grid stability and reliability.

### Global BESS Landscape

The global BESS market is growing quickly due to the rise of renewable energy. Leading countries like the U.S., China, and Germany are driving deployment with their ambitious renewable energy targets. Large-scale energy storage projects are being developed to integrate renewable into the grid and manage peak demand. Advancements in battery technology, especially lithium-ion, are fueling this growth.

### India's BESS Landscape

India's energy storage market is in its early stages but gaining momentum. With ambitious renewable energy targets and grid modernization efforts, BESS is seen as key to achieving energy security. The country's energy storage capacity is expected to grow rapidly, especially with the goal of integrating 450 GW of renewable energy by 2030. The government is supporting BESS adoption through initiatives like the National Energy Storage Mission and pilot projects.

### Applications of BESS

Battery Energy Storage Systems (BESS) have a wide range of applications that support renewable energy integration, grid stability, and sectoral efficiency. They store excess solar and wind energy for use during high-demand periods, stabilize supply and demand, and help manage peak loads by discharging energy when needed. In commercial and industrial sectors, BESS reduces energy costs and ensures backup power during outages. As electric vehicles (EVs) grow in popularity, BESS also aids in optimizing EV charging infrastructure, enhancing energy use, and reducing grid reliance.

### Business Opportunities and Investments

The growing demand for energy storage presents significant business opportunities in utility-scale projects, micro-grids, and commercial applications, making BESS a vital component in India's transition to a sustainable energy future.

### Challenges for BESS

**High Initial Costs:** BESS projects require significant upfront investment.

**Regulatory Gaps:** A lack of clear regulations hinders large-scale adoption.

**Technology Limitations:** Challenges include battery lifespan, efficiency, and material shortages.

**Grid Infrastructure Needs:** Upgrades are needed to integrate BESS with existing infrastructure.

**Energy Losses:** Inefficiencies during charge-discharge cycles reduce overall performance.

**Policy Uncertainty:** Inconsistent long-term support can deter investment.

## EMPLOYEE EXPERIENCE

**CHANDRAMOHANAN K**  
Manager

**Segment: BSNL-4G**  
**Location: Lakshadweep**  
**Experience: 2.5 years**

Since 2015, my relationship with BONDADA Group has been a rewarding journey. Collaborating with highly professional individuals and a supportive management team has greatly enriched my experience in telecommunications. The opportunity to work across diverse teams and locations has significantly contributed to my personal and professional growth.

**Segment: Bondada Ecobuild Office**  
**Location: Telangana**  
**Experience: 5.4 years**

I hold an M.Com and have 15 years of experience in Finance. Currently, I am Senior Manager in the Finance, Control & Analysis (FC&A) Department, focusing on financial management, strategic planning, and data-driven decision-making to support the organization's growth.

**RAVI KRISHNA A**  
Senior Manager in FC&A

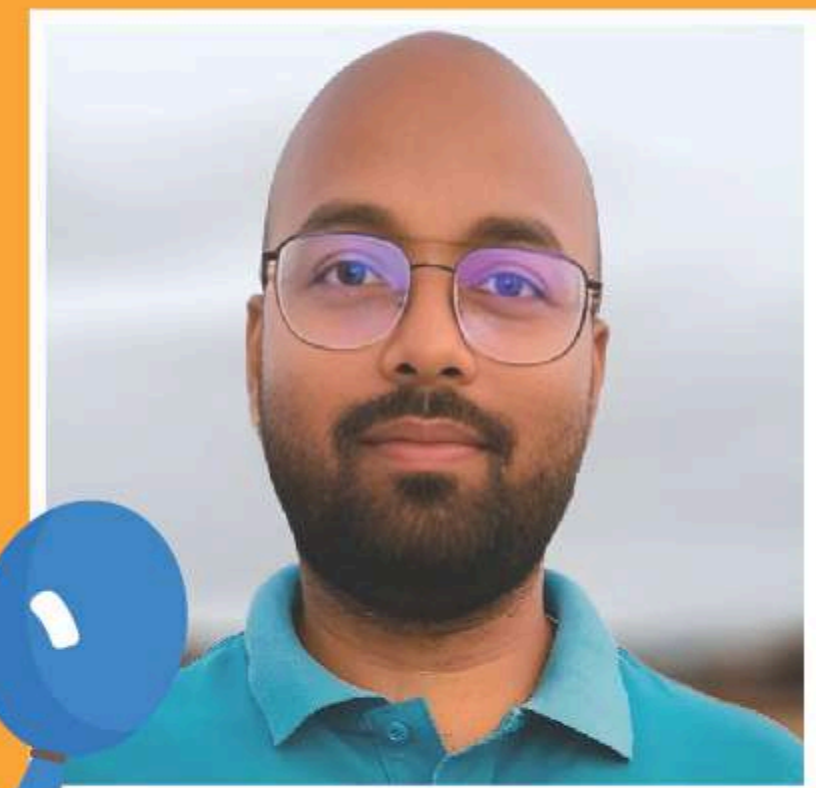

**MOTURI PRASHANTH**  
Asst. General Manager (AGM)

**Segment: Bondada Ecobuild- AAC sales**  
**Location: Andhra pradesh & Telangana**  
**Experience: 2.5 years**

Reflecting on my 2.5 years with Bondada Group, I've experienced both personal and professional growth. Learning from seasoned leaders and mentoring a talented team has been fulfilling. Excited for the future, I remain committed to fostering growth and contributing to Bondada's continued success.

**Segment: Telecom O&M**  
**Location: Guwahati**  
**Experience: 2.3 years**

Since joining Bondada Group in July 2022, I've experienced a transformative journey filled with growth and inspiration. The company's resilience, focus on teamwork, integrity, and customer satisfaction has been a constant source of motivation. I'm proud to be part of this remarkable community.

**LABA BARUHA**  
Asst. Manager

**RAJNISHKUMAR TOLARAM BEHRA**  
Senior Engineer

**Segment: Solar**  
**Location: Corporate office**  
**Experience: 2.3 years**

Over the past two and a half years, I've gained valuable insights into ground mount solar projects. The supportive team environment has been key to my growth, fostering collaboration and motivation. I'm grateful for the opportunity to contribute to our renewable energy mission and excited for what's ahead!
