EDITOR'S NOTE

Exploring The Second...

While there is still a long way to go, the 'Wings' magazine team is heartened by the response and appreciation received by the readers after the launch of our very first edition of 'Bondada Wings' firms magazine.

We are pleased to announce that we are publishing our exclusive Bondada Wings magazine for the second edition, and we are sure that we will keep launching new editions in the future as well. The prime objective of our magazine is to inform readers about recent events and updates at our organization. This magazine is primarily distributed among the employees, stakeholders, associates, and customers.

I'm pleased to announce that Honorable Governor of Andhra Pradesh State Shri. Harichandan Biswabhusan, has awarded our chairman and managing director a prestigious gold award for his meritorious social services.

The Company is spending a significant amount in corporate social responsibility in the areas of health, education, and rural development.

The company is actively trying to fill several new positions with new talent through interviews and recruitment drives.

Kumar Vangara

The 2nd Volume,
By The Editor, October, 2022

CFO DESK

Greetings to all stakeholders

I'm pleased that our 10th Annual Day celebrations went off without a hitch, with rousing acclaim. Despite a challenging second quarter due to weather conditions, the corporation reported fair revenues in the first half of the year.

With a larger order book on hand from telecom construction, solar EPC, and tower supplies that must be completed by March 2023, the company is now expecting to produce massive revenues throughout Q3 and Q4. We are delighted to announce that we have begun working with BSNL-BBNL to maintain their fiber network across MH, AS, NE1 and NE2 with more than 85,000 kilometers beginning on July 1, 2022.

We regularly comply with all statutory regulations, such as GST, IT, ESI, EPF, and labor legislation. Needless to mention, the deposit of salaries to employees on the first working day of the month is continuing and will continue in the future. I wish the company and its stakeholders a prosperous new year.

Baratham Satyanarayana

Director & CFO

Favorite Quotation BY THE EDITOR

"Almost all quality improvements are the result of simplifying design, manufacturing... layout, processes, and procedures."

Favorite Quotation BY THE CFO

"The key to wealth is to do more for others than anyone else." Make yourself more valuable. More should be done."

Bondada Engineering Private Limited

Following the success of our first edition of the magazine, we are thrilled to release the second edition of our exclusive "Bondada Wings" magazine.

Celebrating Success! Both trust and continuity make things possible this far. Celebrating a ten-year anniversary milestone is a big achievement in itself. It's a celebration for all who have been a part of the company through all those years.

On the occasion of our company's tenth anniversary, we had a grand celebration at the Vorla Convention on April 7, 2022. On this special occasion, I'd like to express my sincere thanks to all of the participants who helped make this event a huge success. My special thanks to Shri Farukbhai Patel, Shri J D Lakshminarayana, and Shri Dr. Samaram for taking time from their busy schedules to attend this ceremony.

Our company is doing very well in terms of new business development, notably for public sector organizations such as BSNL-BBNL, BHEL, RailTel, NTPC, and NFC. We have submitted tenders for various works with the above companies and are optimistic of receiving the order from them.

The company has already secured a contract worth INR 360Cr from BSNL-BBNL, BHEL, and RailTel, which must be delivered within the next two years. The company is also actively engaged in the BSNL-4G Saturation Towers Pan-India tender, for which 26,000 towers must be erected in 500 days as part of the DoT's USOF (universal service obligation fund) initiative (department of telecommunications). We are optimistic in obtaining this tender, which will propel the organization to new heights.

With the foregoing, I am confident that we will have another fantastic year and achieve many more milestones in the company's history.

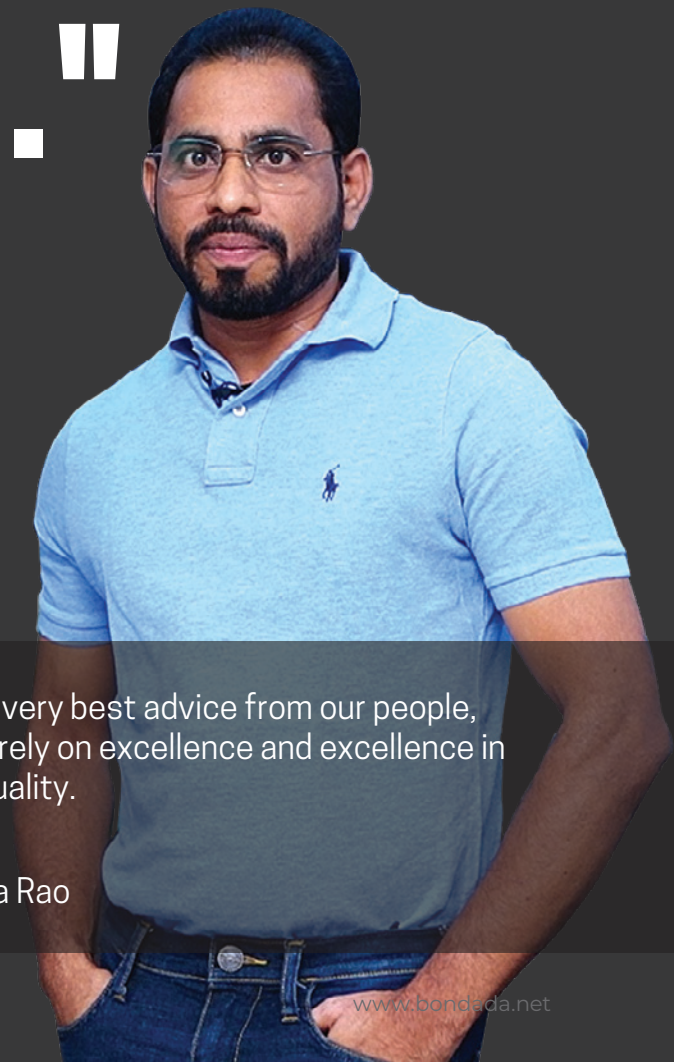

Quote BY THE CHAIRMAN & MD

"Excellence is the limitless ability to enhance the standard of what you offer."

“

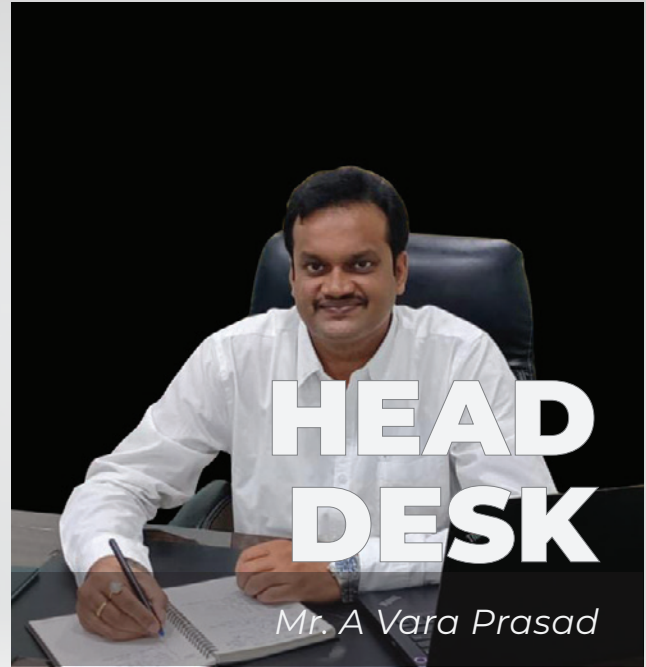

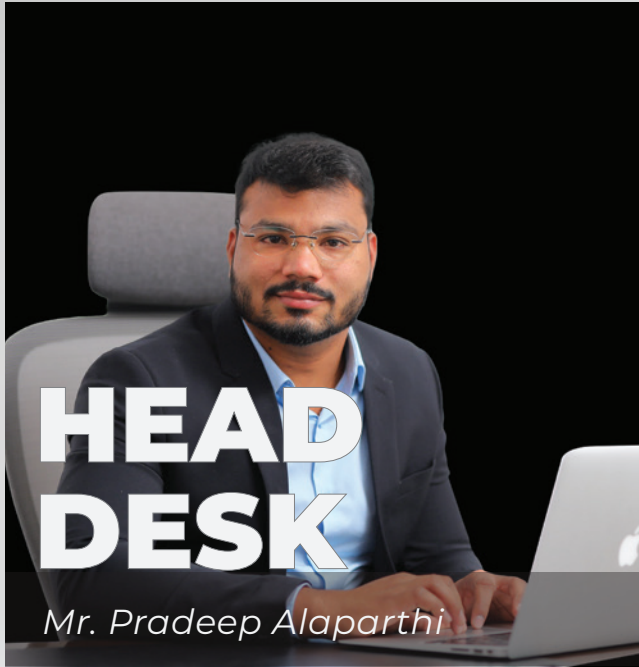

"Opportunities
don't happen.
You create
them."

CHRIS GROSSER

We owed our success to respectfully listening to the very best advice from our people, customers, partners, and associates, and focusing entirely on excellence and excellence in execution, production, quality.

Mr. Bondada Raghavendra Rao

BONDADA ABODES

Pradeep Alaparathi graduated from JNTU-H with a degree in civil engineering. He is a young, tenacious leader with experience in several areas, including residential building construction, industrial infrastructure construction, pre-engineered building construction, and telecom construction. He is skilled in contract negotiations, technological commercial elements of projects, and competitive market analyses.

Pradeep is in charge of the u-PVC windows and doors business division of Bondada Abodes.

This division has two manufacturing facilities with a total installed capacity of 4.80 lakh square feet per year in Vizag and Hyderabad. From both plants, it generates approx. ₹10 crore in revenue annually. Major construction companies and real estate developers are among the company's customers. The brand is popularly known in the market as "Smart Windows." u-PVC windows and doors are being used in the majority of construction projects due to their many benefits. There are several benefits of using u-PVC windows, including affordability, ease of maintenance, durability, aesthetic appeal, pest free nature. French doors and windows are popular names for these windows.

SMARTBRIX

Vara Prasad has over 21 years' experience in the managing of Manufacturing Facilities and Project Management Services in the Telecom & Transmission industries. His major throughout college was computer science. He has expertise in project's technological and business elements. Implementing new technologies, advancing the team's skill set continuously, and pushing himself to achieve management objectives are some of his key endeavors.

The Bondada Group's SmartBrix business entity is under Vara Prasad's direction.

Since 2016, this enterprise has been producing and delivering eco-friendly products together with full wall solutions under the name SmartBrix Infra Technologies Pvt Ltd. The Indian Green Building Council and the Indian Standard Institution both highly certify SmartBrix - The Engineer's Choice. The company provides a variety of goods, including Smartfix, a ready-mixed plaster that can be used instead of river sand to minimize additional costs and resource use when pasting blocks. Wall Putty Interior & Exterior based on White Cement from Smartcare. Traditional plastering is not as efficient or cost-effective as Smart Plast. In the two Telugu states of Telangana and Andhra Pradesh, SmartBrix is a well-known brand name.

- On 25th April, 2022. Completed 40-meter tubular tower prototype testing for client Ascend Telecom Infrastructure Pvt Ltd at our tower facility

We too be proud that we have been associated with you in sharing, seeing and keep on doing well in the intrest of the society to the government. We Wish You All Of You With Love And Affection

Ex-employee, K V Rama Rao

Hi Satya ji, Good Morning.I have been waiting for this day to attend BEPL's 10th Anniversary celebration. It is my selfish motive as well to get connected to few old friends and few new connections. But unfortunately I'm unable to attend due to some unscheduled travel. I regret to miss this opportunity. Thanks again for the invitation and all the very best for BEPL for its future endeavors.

Our Honorable CMD Shri Bondada Raghavendra Rao & Director Shri Bondada Neelima have given few gifts to Children's.

WHAT NEXT?

BUILDING MATERIAL (AAC & uPVC - R&D)

SmartBrix Infra Technologies Pvt. Ltd.

SmartBrix Infra Technologies Pvt. Ltd. is wholly subsidiary of the Bondada Engineering Pvt. Ltd. (BEPL). SmartBrix's core expertise lies in providing qualitative and durable products that meet today's construction requirements. We are ISO 9001:2008 and Green product certified company has been in the forefront at meeting customer's expectations. The experienced team of professionals ensure solid solutions for smarter and reliable construction.

Autoclaved Aerated Concrete Blocks - AAC Blocks, the future of building construction. Over the last decade, this Green and non-toxic building construction material has emerged as a preferred choice over red-bricks due to its unique combination and superior build properties like strength, low weight, thermal insulation, sound absorption, and unrivalled fire resistance and economical. Thanks to its unmatched build-ability, it emerged as the future of building construction.

The global autoclaved aerated concrete (AAC) market size is expected to reach USD 28.41 Billion at a steady CAGR of 5.3% in 2028, according to the latest analysis by Emergen Research. According to a recent report, the Indian AAC blocks market is anticipated to register a CAGR of 14.3% during 2020-27 to reach Rs. 11,000 crores.

"The Indian market well accepts AAC blocks. Its use will grow stupendously in the coming years owing to increased awareness amongst the builders and architects about the several beneficial attributes of AAC blocks over red clay and fly ash bricks. Shortage of urban labour and high interest costs have forced developers and construction companies to look for faster and more efficient building materials.

India is likely to witness an investment of around USD 1.3 trillion in housing over the next seven years, during which it is likely to witness the construction of 60 million new homes. The union cabinet has also extended the validity of the PMAY-Gramin programme till March 31, 2024, to achieve the target of constructing 2.95 crore houses.

BONDADA WINGS

NEW INNOVATION & INITIATIVES

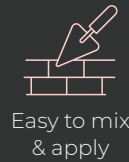

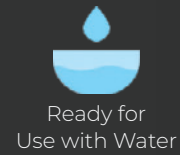

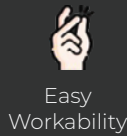

SmartFIX

(Jointing Mortar)

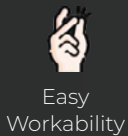

The quality of jointing mortar is the deciding factor for strong and weather resistant walls. SmartFix block is known for quality, strength and economic value. It is a perfect replacement for conventional cement and sand mortar.

It is particularly useful in laying and jointing fly ash bricks, cement blocks, AAC blocks, pre-stressed concrete slabs, panels, parapet, cement windows, large door frames and boundary walls.

SmartPlast

(Ready Mix Plaster)

Smart plast is a cost-effective and efficient alternative to traditional plastering. The pre mixed special aggregates in right ratio gives it excellent bonding strength and is easy to apply. The unique formulation not only strengthens walls but also protects expensive paints from moisture or dampness.

SmartCare

(White Cement Based Wall Putty Interior & Exterior)

Wall putty is a white cement based polymer modified wall putty specially developed as a finish coat unevenness and pinholes in plastered surfaces and to make walls/ceilings ready for painting. As it is white, it can be treated as a base coat for painting.

BONDADA WINGS

NEW INNOVATION & INITIATIVES

BONDADA WINGS

NEW INNOVATION & INITIATIVES

SmartWindows

The Builder's Choice

Windows & doors made out of uPVC are best suited for the outer periphery of homes, Offices and public places. They offer excellent security, durability and are absolute maintenance free.

-  FIRE RESISTANCE
-  ENERGY SAVING
-  DURABILITY
-  SAFETY
-  NOISE REDUCTION
-  TERMITE PROOF
-  WIND RESISTANCE
-  ECO-FRIENDLY
-  UV RESISTANCE
-  LIGHT WEIGHT

When compared to wooden or Aluminium

- Do not need painting or heavy cleaning
- Are UV resistant and do not fade even under sustained exposure to sun
- Have a special rain drain mechanism which prevents leakage
- Are steel reinforced and resistant to winds and rattling
- Have fusion welded joints to ensure energy savings
- Have low maintenance and a long life.

Through the last ten years, BEPL has provided me with a great overall experience, while there have been several challenges. I genuinely enjoy working in the BEPL and finding out how productive everyone is. BEPL's ethos of treating the business like a family is something I admire. It could possibly be referred to as a "BEPL FAMILY." As long as I've worked for BEPL, I've seen that the company's leadership has consistently given my team and I a great deal of latitude to act whatever we see fit. I've never felt micromanaged. When assistance is required, our leadership is accessible and ready to help. When they can, they offer positive feedback, and when necessary, they offer critical feedback. With continued support from management, I anticipate myself working for BEPL in the coming years. The greatest part of our company is our MD, Mr. B R Rao. He has the ability to assist an individual in achieving both personal and business goals. I consider myself quite fortunate to have him as our company's MD.

B R Pande

Employee ID: 400059

IN SERVICE SINCE, 01-Oct-2013, 9 Years

I started my journey with the Tower Supply Division of the BONDADA Group around five years ago. Working with BEPL has been a joy in a welcoming environment. I've learned a lot from wonderful people around, and it's helped both my professional development and the growth of my business. Positive traits, ethics, and moral values are prevalent in the management. BEPL's commitment in achieving a common objective exemplifies "teamwork." A firm that expands consistently over time can be produced by elements like BEPL's equitable distribution of short-term and long-term goals. Being a member of this group makes me incredibly proud.

Bheemanadham Ramesh

Employee ID: 401516

IN SERVICE SINCE, 02-Apr-2018, 4.7 Years

After six wonderful years at BEPL, the enthusiasm and energy levels are exactly the same as they were on my first day of employment. Here, I have experienced significant personal and professional growth. Our amazing leadership team always inspires us to step outside of our comfort zones and learn new skills in order to advance in our careers. I consider myself fortunate to be a part of BEPL and looking forward to growing my knowledge and continue to contribute over the coming years.

Rubiya Sayeed

Employee ID: 401534

IN SERVICE SINCE, 01-Jul-2016, 6.4 Years

Working with BEPL has been a wonderful experience for me throughout the past five years that I have been with the company. I enjoy participating in all of the events and functions hosted at BEPL, and I am delighted to be a part of each of them. The reporting authorities I've worked with have all treated me with the utmost respect, and they enjoy working with me. BEPL has a welcoming environment, and all employees are treated with the utmost respect. The business continually works to develop both itself and its workforce and keeps people motivated. The trust that my reporting authorities had in me concerning my work remains unforgettable. Being with BEPL enabled me to see my growth on both a professional and personal level. The company responds to the employee's concerns straight away. Furthermore, I'd like to express that I feel privileged and proud to work for this prestigious organization
